

NOTOX SEALING PLIERS

- Nickel-plated pliers with adjustable pressure, plastic-coated handles.
- Little force required due to the long handles.
- For squeezing plastic Notox seals or traditional lead seals.
- Pliers with adjustable pressure supplied as standard with a blank stamp
- Possibility of unique identification by means of an engraving on one or both stamps of the pliers to prevent fraud.
- The sealing pliers can be used, among other things, for sealing utility meters as well as fire extinguishers or for applying color coding.
